

Good housekeeping for landscape materials

Shall consist of the following:

- Contain stockpiled materials such as mulches and topsoil when they are not actively being used.
- Contain all fertilizers and other landscape materials when they are not actively being used.
- Discontinue the application of any erodible landscape material within 2 days before a forecasted rain event or during periods of precipitation.
- Apply erodible landscape material at quantities and application rates according to manufacture recommendations or based on written specifications by knowledgeable and experienced field personnel.
- Stack erodible landscape material on pallets and covering or storing such materials when not being used or applied.
